

AUDIT REPORT 2015

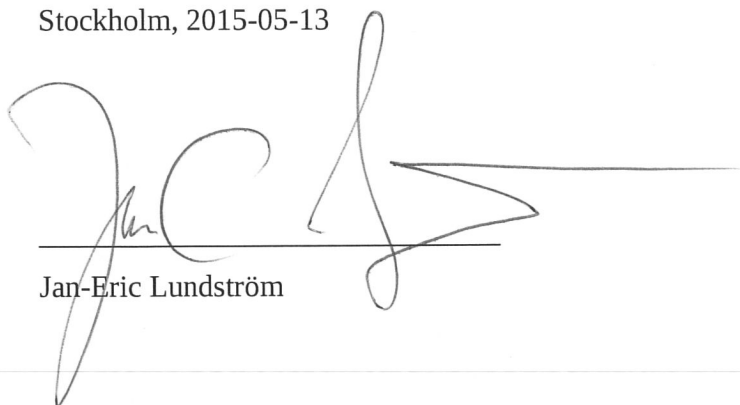

What I have audited

I have audited the accounts of the fiscal year 2014 of the International SQL-Ledger Network Association, a non-profit organization registered in Stäfa Switzerland. My objective has been to determine whether the books and records of the fiscal year 2014 comply with ordinary accounting principles and whether the organizations income and expenses are adequately documented in the attached financial statements.

What I have found

I have found that the attached financial statements give at true and fair view, in accordance with ordinary accounting principles, of the state of the organizations financial status at 2014-12-31 and of its profit for the year end. I have obtained all the information and explanations I consider necessary for the purpose of my audit and in my opinion, the financial statements are in agreement with the books of account.
